I. INTRODUCTION

The General Assembly Retirement System of Illinois (“GARS” or “System”) is requesting proposals for a full-scope actuarial audit of the State Fiscal Year 2020 annual valuation. The objective of this Request for Proposal (“RFP”) is to solicit competitive proposals from qualified vendors in sufficient detail to permit objective evaluation of all proposals that may result in a contract to have an independent actuarial consulting firm not currently retained by the System:

- (1) conduct a full-scope audit of the actuarial work performed by the currently retained actuarial consulting firm for the State Fiscal Year 2020 annual valuation;
- (2) express a professional opinion on the reasonableness and accuracy of valuation results, actuarial assumptions, actuarial accounting methods, and statutory contribution calculations; and
- (3) deliver a detailed written report and oral presentation of its findings to the Board of Trustees of the System.

If you are interested in providing these services to GARS, please read the entire solicitation package and submit a proposal to the RFP in accordance with the instructions in this packet.

GARS is committed to increasing racial, ethnic, and gender diversity in all aspects of its utilization of vendors to provide goods and services to the System, to the greatest extent feasible, and within the bounds of financial and fiduciary prudence. To that end, the System strongly encourages minority-owned businesses, women-owned businesses, businesses owned by persons with a disability, and veteran-owned businesses to submit proposals in response to this RFP.

A vendor’s preparation and submittal of a proposal or subsequent participation in contract negotiations creates no obligation on the System to award a contract or to pay any associated costs. All proposals and related materials will be retained by the System and will be subject to disclosure in accordance with the Illinois Freedom of Information Act.

II. SUMMARY DESCRIPTION OF SYSTEM

GARS is a retirement system that administers a governmental defined benefit plan through which legislators and constitutional officers of the State of Illinois are provided retirement, disability, death, and survivor benefits. The retirement system is administered as a qualified plan under Section 401(a) of the Internal Revenue Code, and its investments and benefit programs are managed in accordance with the requirements of the Illinois Pension Code (40 ILCS 5/).

Funding for the System comes from member contributions, the State of Illinois, and investment income. The GARS benefit plan is funded in accordance with a statutory funding policy that sets the required State minimum contribution at the amount needed to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045, calculated as a level percent of payroll using the projected unit credit actuarial cost method. *See* 40 ILCS 5/2-124(c). Annual actuarial valuations are used to calculate the statutorily required contributions from the State of Illinois. In accordance with Section 2-146 of the Illinois Pension Code, an experience study is conducted every three years to monitor the validity of the System's actuarial assumptions. An experience study for the System was completed for State fiscal year 2018 and is also anticipated to be completed for State fiscal year 2021. The System's most recent annual financial reports and actuarial valuations are available on the GARS website at: https://www.srs.illinois.gov/GARS/annreports_gars.htm.

Administration of the System is statutorily assigned to a seven-member board of trustees, which consists of the three members of the Illinois Senate appointed by the Senate President; 3 members of the Illinois House of Representatives appointed by the Speaker of the House of Representatives; and one person elected from member annuitants. 40 ILCS 5/2-127. However, the day-to-day operations of the System are overseen by its Executive Secretary and are delegated to administrative staff located at the System's administrative office in Springfield, Illinois.

III. REQUIRED SERVICES

GARS is seeking proposals to review the work of the actuarial consulting firm it has currently retained: Gabriel, Roeder, Smith & Company (GRS). The focus of this project is a level one (i.e., “full-scope”) actuarial audit of the State Fiscal Year 2020 annual valuation to ensure that the results presented by GRS in that valuation are actuarially sound, reasonable, and consistent with industry standards. To that end, the selected vendor shall fully replicate the State Fiscal Year 2020 annual valuation prepared by GRS, based on the same census data, assumptions, and actuarial methods used by GRS to prepare that valuation, and shall:

- (1) analyze the reasonableness, accuracy, appropriateness, and internal consistency of the System’s actuarial assumptions, including the investment rate of return assumption;
- (2) review the System’s actuarial assumptions and methodology for compliance with generally accepted actuarial principles, State statutes, and Board policies;
- (3) evaluate the data used for performance of the valuation, including the System’s applicable internal control procedures concerning the production of the data used in the actuarial calculations, the degree to which the data is sufficient to support the conclusions of the investigation, and the use and appropriateness of any assumptions made regarding the data;
- (4) replicate the valuation results of the State Fiscal Year 2020 valuation using a mathematical model of plan activity or sampling based on the same data, methods, and assumptions used by GRS;
- (5) evaluate the replicated results and reconcile any significant discrepancies between the findings, assumptions, methodology, rates, and adjustments of the selected vendor and GRS;
- (6) provide an opinion as to the accuracy of the actuarial valuation results, including a determination of actuarial accrued liability, normal cost, and expected employer contributions;
- (7) assess whether the valuation appropriately reflects information required to be disclosed under required reporting standards (GASB, etc.);
- (8) prepare a draft report of its findings by no later than November 15, 2021, and a final report of its findings by no later than December 1, 2021;
- (9) deliver an oral presentation of its findings to the GARS Board of Trustees at its meeting on January 14, 2022; and
- (10) prepare a letter of findings that can be included in the GARS annual financial report for State fiscal year 2021.

The selected vendor shall provide all required services in accordance with federal and State laws and in accordance with its contract with the System. The final report prepared by the selected vendor shall provide an evaluation sufficient to allow the vendor to express an opinion regarding the reasonableness and accuracy of the valuation results, actuarial assumptions, and application of the actuarial cost method. The report should also include any recommendations or opinions regarding alternatives to the actuarial assumptions currently being used or their application. In addition, the vendor should provide any recommendations to improve the quality and understanding of the valuation report. The selected vendor shall prepare the draft report of its findings for review and comment by GARS and GRS prior to the issuance of the final report, and the final report shall acknowledge and address all concerns raised by GARS or GRS.

IV. PROPOSAL CONTENTS

At a minimum, the proposal must include the following information to be considered for the engagement. For ease of review, each requirement should be addressed in a separate section preceded by an index tab to identify the subject of the section. The proposal should be formatted on consecutively numbered pages and include a table of contents. Failure to provide information in the prescribed format may result in rejection of the proposal. All responses will be subject to verification for accuracy. **Proposals containing false or misleading information will be rejected.**

A. Cover Letter

A cover letter, which will be considered an integral part of the proposal package, in the form of a standard business letter, must be signed by an individual authorized to bind the vendor contractually. This cover letter must indicate the signer is so authorized, and it must indicate the signer's title or position. An unsigned proposal will be rejected. The cover letter must also include:

- (1) A statement that the vendor is capable of providing the required services, that the proposal meets all requirements of this RFP, and that the proposal tendered by the vendor will remain in full force and effect until (and may be accepted by the General Assembly Retirement System at any time prior to) August 6, 2021.
- (2) A statement by the vendor certifying that it is registered as a business entity with the State Board of Elections pursuant to Section 20-160 of the Procurement Code, 30 ILCS 500/20-160, and acknowledges a continuing duty to maintain such registration under the Procurement Code or that it is not required to register under that provision; and that vendor acknowledges that any contract awarded as a result of this RFP is voidable under Section 50-60 of the Procurement Code if the vendor fails to comply with the business entity registration requirements. 30 ILCS 500/20-160; 30 ILCS 500/50-60.
- (3) A statement that the proposal is being made without fraud or collusion; that the vendor has not offered or received any finder's fees, inducements, or any other form of remuneration, monetary or non-monetary, from any individual or entity; and that the vendor has not conferred, or promised to confer, on any individual or entity, any payment, loan, advance, services, or any other form of remuneration in connection with the award of this engagement.
- (4) **A statement that the vendor is willing to enter into an agreement in the form attached to the RFP as Appendix D, including all certifications, disclosures, exhibits, and representations described or set out therein, and that the vendor acknowledges and understands that certain general provisions in the sample agreement mandated by Illinois state law to be included in contracts with agencies of the State of Illinois are not subject to negotiation.**

- (5) A reference to all matters required to be disclosed under Paragraph H below (“Other Disclosures”).
- (6) A statement that the vendor acknowledges that all documents submitted in response to this RFP are subject to disclosure under the Illinois Freedom of Information Act, 5 ILCS 140, and the Illinois Open Meetings Act, 5 ILCS 120.
- (7) An acknowledgment by the signer that the information provided in the proposal is true and accurate, and that the signer is aware that pursuant to the Illinois Pension Code, 40 ILCS 5/1-135, any person who knowingly makes any false statement or falsifies or permits to be falsified any record of a retirement system or pension fund created under this Code (i.e., the System) in an attempt to defraud the retirement system or pension fund is guilty of a Class 3 felony.

B. Information about Vendor and Staff Available for Assignment

In addition to the required cover letter, the proposal must contain the following information about the vendor and its staff who are available for assignment on the GARS project:

- (1) The vendor’s name, mailing address, phone number, and Federal Employer Identification Number (FEIN) and a general written description of the vendor, including its total number of employees and services offered.
- (2) A written statement identifying the personnel who will be assigned to perform work under the agreement with GARS.
- (3) The name, title, phone number, e-mail address, and mailing address of the primary (senior) supervising actuary available for assignment on the engagement.
- (4) Written documentation which establishes that the primary (senior) supervising actuary is a Fellow of the Society of Actuaries (FSA) and that each supporting actuary to be employed on the project is a Fellow of the Society of Actuaries, an enrolled actuary, or has at least five years of public pension consulting service.
- (5) A copy of the résumé or a brief written summary of the professional experience and qualifications of (i) each supervising actuary who will perform work under the agreement with GARS, (ii) each supporting actuary who will perform work under the agreement with GARS, and (iii) any other personnel who will perform work under the agreement with GARS.

C. Vendor’s Actuarial Review Experience

In addition to the information required above, the vendor shall also include in its proposal the following information concerning the vendor’s experience providing actuarial review services:

- (1) A written description of the vendor's experience in providing actuarial and consulting services for state retirement systems, including a list of the state retirement systems for which the vendor has previously performed full- or limited-scope actuarial audit services and a list of the state retirement systems for which the vendor has provided any of the services identified in Section III above.
- (2) Documentary evidence that the primary supervising actuary available for assignment has experience providing actuarial consulting services to state retirement systems.
- (3) At least one sample of an actuarial audit report that was prepared by the vendor for a state retirement system.
- (4) Contact information, including the names, addresses, telephone numbers, and e-mail addresses, as well as completed "Reference Authorization Letters," for clients that GARS may contact as references, including at least three (3) former client references for which the vendor has performed, within the last three (3) years, actuarial auditing services similar to those described in this RFP and at least one current client reference for which the vendor has performed, within the last three (3) years, actuarial consulting or actuarial auditing services similar to those described in this RFP. *See* "Appendix A: Reference Authorization Letter" for the text to be included in each of the Reference Authorization Letters.

D. Vendor's Approach to Required Services and Timetable for Completion

In addition to the information required above, the vendor shall also include in its proposal the following information concerning the vendor's approach to the required services and its timetable for completion of those services in accordance with the schedule set forth in Section VII of this RFP:

- (1) One- to three-page written description of the vendor's understanding of the requested services, including its proposed approach in providing the full-scope actuarial auditing services required under Section III above.
- (2) Proposed outline of tasks to be completed during the full-scope audit and a proposed timeline for completing those tasks.

E. Statement of Minimum Qualifications

Vendor must complete and include in its response the Minimum Qualifications Certification in the form contained in Appendix B.

F. Fee Proposal

Vendor must submit a written fixed fee proposal that is quoted on a "not to exceed" basis for the services described in Section III ("Services Required"). The fee proposal shall cover

and include all planning, fieldwork, administrative, third-party, travel, and other costs, and it shall be in the format prescribed in Appendix C. Any deviation from the prescribed format which in the opinion of GARS is material may result in the rejection of the proposal. The proposed fee shall include all expenses for providing the services to GARS as described in this RFP.

If GARS does not consider the proposal price to be fair and reasonable and cannot negotiate an acceptable price, then GARS reserves the right to cancel the award and take appropriate action to meet its needs. GARS will determine whether the cost is fair and reasonable by considering the proposal, including the vendor's qualifications, the price proposed, other known prices, the project budget, and other relevant factors.

G. Contract

This RFP is neither a contract nor meant to serve as a contract.

It is anticipated that one of the proposals submitted in response to this RFP may be selected as the basis for negotiation of a contract with the selected vendor. Such a contract is presently contemplated to contain, at a minimum, the terms and conditions set forth in the sample agreement included as Appendix D, but the contract will also incorporate the terms of the proposal submitted, as finally negotiated and approved by the System. GARS reserves the right to negotiate additions, deletions, or modifications to the sample agreement and/or the terms of proposals submitted.

Certain provisions in the sample agreement are required by the State of Illinois and are therefore not subject to negotiation. **Thus, it is critically important that vendors submitting proposals clearly and thoroughly identify any and all contractual concerns in their written proposal. Material changes to the sample agreement may preclude the proposal from further consideration.** A vendor that waits until contract negotiation to object to GARS contract terms may be precluded from further consideration.

H. Other Disclosures

In addition to the information required above, the vendor shall also include in its proposal the following information:

- (1) A written statement that identifies and thoroughly describes any investigation, non-routine examination, complaint, disciplinary action, or other proceeding of or against the vendor that was commenced by any state or federal regulatory body or professional organization during the past five (5) years.
- (2) A disclosure of all potential conflicts of interests that might exist if the vendor is awarded the contract, including any current business relationship or any current negotiations for prospective business with GARS, or with any member of the GARS Board of Trustees or GARS staff, or any party currently rendering services

to GARS. Provide a detailed statement explaining why such relationships do not constitute a conflict of interest.

I. Measuring Progress Toward System’s Diversity Goal

Vendor must indicate in its response whether it is (or is not) a minority-owned business, woman-owned business, or business owned by a person with a disability, as those terms are defined in Section 2 of the Business Enterprise for Minorities, Women, and Persons with Disabilities Act (30 ILCS 575/2), which is available online at the following address: <https://www.ilga.gov/legislation/ilcs/fulltext.asp?DocName=003005750K2>. The System has established an aspirational goal, as well as an Inclusion Policy, to use businesses owned by minorities, women, and persons with disabilities for not less than the percentage specified in paragraph (10) of Section 1-109.1 of the Illinois Pension Code for all contracts awarded and purchases made by the System. To ensure that it is making progress toward its aspirational goal established under Section 1-109.1, GARS will require the selected vendor to certify whether it is a minority-owned business, woman-owned business, or business owned by a person with a disability. See the “Supplemental Diversity Certification” form in Exhibit B of the sample agreement for the required certification to the System.

J. Cybersecurity Practices

Vendor must also include in its response the following information concerning its current cybersecurity practices:

- (1) a written description of and, if available, copies of its information security standards, practices, and policies;
- (2) a written description of actions that it takes to validate its cybersecurity practices and compliance with its cybersecurity policies;
- (3) a list of the cybersecurity standards that it meets and has implemented;
- (4) a list of its cybersecurity breaches within the last 5 years, if any, and its response to those breaches; and
- (5) a list of the insurance policies, if any, which it carries and which would cover System losses resulting from cybersecurity or identity theft breaches, as well as a statement of the amount of coverage that will be maintained under those policies during the period when actuarial auditing services would be provided by the Vendor.

K. Standard Forms Required for a Responsive Proposal

If a vendor will not be using an Illinois Procurement Gateway (IPG) Registration Number and will instead be completing “Forms A” (<https://www2.illinois.gov/cpo/general/>)

[Documents/Forms%20A%20Section%20V.18.1.doc](#)), then the vendor must submit the following forms:

- Illinois Department of Human Rights Public Contracts Number: Vendor shall complete and return the “IDHR Public Contracts Number” form in Forms A , Part 2.
- Authorized to Transact Business or Conduct Affairs in Illinois: A person (other than an individual acting as a sole proprietor) must be a duly constituted legal entity prior to submitting a bid and authorized to transact business or conduct affairs in Illinois prior to execution of the contract. For more information, see “Authorized to Transact Business or Conduct Affairs in Illinois” in Forms A, Part 3.
- Standard Certifications: Vendor shall complete and return the “Standard Certifications” form in Forms A, Part 4.
- State Board of Elections Registration: Vendor may be prohibited from making political contributions and be required to register with the State Board of Elections. For more information, see “State Board of Elections” in Forms A, Part 5.

- Financial Disclosures and Conflicts of Interest: Vendor shall complete and return the “Financial Disclosures and Conflicts of Interest” form in Forms A, Part 7.
- Taxpayer Identification Number: Vendor shall complete and return the Taxpayer Identification form in Forms A, Part 8.

If a vendor will be using an Illinois Procurement Gateway (IPG) Registration Number and will instead be completing “Forms B” (<https://www2.illinois.gov/cpo/general/Documents/Forms%20B%20Section%20V.18.1.doc>), then the vendor must provide:

- Active Illinois Procurement Gateway registration number with expiration date.
- Disclosure of lobbyists for vendor and parent entity(ies).
- Disclosure of pending and current contracts.
- Certifications timely to this solicitation.

V. SUBMISSION OF PROPOSALS

All proposals must be received at the address designated below by **no later than 2:00 P.M. CST on June 21, 2021**. Submit four (4) hard copies of your proposal and one (1) copy in a .pdf format on CD-ROM or thumb/jump drive to:

Mr. Robert Cooper
State Retirement Systems
Director of Administrative Services
2101 S. Veterans Parkway
Springfield, IL 62704

Proposals must be submitted in one or more sealed envelope/package(s). One of the hard copies must be marked as the “Master Copy” and submitted in a loose-leaf, three-ringed binder which displays the vendor’s name on the outside front cover. **Do not submit the Master Copy with spiral binding.**

Clearly identify the outside of each sealed proposal package with the vendor’s name and return address in the upper left-hand corner and the statement **“SEALED PROPOSAL- DO NOT OPEN - Response to Request for Proposal for Full-Scope Actuarial Audit Services (GARS), Issued May 21, 2021.”** Failure to clearly identify the outside of the proposal package may result in the rejection of the proposal. GARS is not responsible for receipt of any proposal which is improperly labeled.

GARS accepts no responsibility for lost and/or late delivery of proposals. Whether mailed, hand-delivered, or delivered by carrier, the vendor is responsible for timely delivery on or before the above date and time. **Proposals that arrive late for any reason whatsoever, including mail delay or any other cause beyond the control of the vendor, will not be considered and will not be returned to the vendor.**

Except as specifically requested by GARS, submission of proposals or any portion thereof via facsimile transmission, electronic, or magnetic media is not allowed.

The proposals become the property of GARS upon submission. All costs for developing proposals and attending presentations and/or interviews are entirely the responsibility of the vendor and shall not be chargeable to GARS.

Only one proposal from an individual, vendor, partnership, corporation, or combination thereof, will be considered for this assignment.

VI. EVALUATION PROCESS

A. Pre-Evaluation Review

Each proposal package will be date-stamped when received and will be inspected to ensure that it is properly sealed and labeled. Proposals not passing this inspection may not be accepted. All proposals will be reviewed to determine if they contain all of the materials specified in this RFP. Those vendors who do not submit all of the specified materials in the prescribed format will be rejected.

B. Proposal Evaluation

Proposals that pass the pre-evaluation review will undergo an evaluation process conducted by GARS staff. GARS will consider the following various elements in the decision process, ranked in no specific order, and will render a decision based on the perceived best value for the engagement. Cost will be one of the determining factors in this decision, but it may not be the primary determinative. Proposals will be evaluated based on criteria, including:

- (1) the vendor's responsiveness and responsibility;
- (2) the vendor's understanding of the services requested;
- (3) the vendor's capacity to provide the required services, as demonstrated by:
 - (A) qualifications of the consulting staff to be assigned to this project, particularly regarding relevant experience with state retirement systems and actuarial audit services; and
 - (B) the experience of the vendor and its staff in providing actuarial consulting and review services to state retirement systems;
 - (C) actuarial audit reports prepared for other engagements;
- (4) the quality, conciseness, clarity, and completeness of the vendor's proposal;
- (5) soundness of the vendor's approach and quality of the proposed services; and
- (6) cost.

During the evaluation process, vendors may be requested to provide additional information and/or clarify the contents of their proposal. Other than information requested by GARS, no vendor will be allowed to alter the proposal or add new information after the filing date.

GARS reserves the right to amend any segment of the RFP prior to the announcement of a successful vendor. In such an event, all vendors who submitted a proposal by the deadline on June 21, 2021, will be afforded the opportunity to revise their proposal to accommodate the RFP amendment.

GARS also reserves the right without prejudice to reject any or all proposals submitted. There is no express or implied obligation for GARS to reimburse for any expenses incurred in preparing proposals in response to this RFP.

C. Vendor Responsiveness and Responsibility

As noted above, two of the criteria that will be evaluated by the System are the vendor's responsiveness and responsibility.

(1) Responsiveness

For purposes of this solicitation, a responsive vendor is one who submits a proposal that conforms in all material respects to this RFP and includes all of the materials and completed copies of the forms described in Section IV. The System will determine whether the proposal meets the stated requirements. Minor differences or deviations that have negligible impact on the price or suitability of the supply or service to meet the System's needs may be accepted or corrections allowed. If no vendor meets a particular requirement, the System may waive that requirement. The System will determine whether the proposal complied with the instructions for submitting proposals.

(2) Responsibility

For purposes of this solicitation, a responsible vendor is one who has the capability in all respects to perform fully the contract requirements and who has the integrity and reliability that will assure good faith performance and who is not a prohibited bidder. The System determines whether the vendor is a "responsible" vendor (i.e., a vendor with whom the System can or should do business). For example, the System may consider the following:

A "prohibited bidder" includes any person assisting an employee of the System or State of Illinois by reviewing, drafting, directing, or preparing any invitation for bids, a request for proposal, or request of information, or providing similar assistance unless such assistance was part of a publicly issued opportunity to review drafts of all or part of these documents. For purposes of this section, an employee of the State of Illinois means one who, by the nature of his or her duties, has the authority to participate personally and substantially in the decision to award a State contract. No person or business shall submit specifications to the System or a State agency unless requested to do so by an employee of the State. No person or business that contracts with the System or a State agency to write specifications for a particular procurement need shall submit a bid or proposal or receive a contract for that procurement need.

Other factors that the System may evaluate to determine responsibility include, but are not limited to: political contributions, certifications, conflicts of interest, financial disclosures, taxpayer identification number, past performance in business or industry, references (including those found outside the vendor), compliance with applicable laws, financial responsibility, insurability, effective equal opportunity compliance, payment of prevailing wages if required by law, capacity to produce or sources of supply, and the ability to provide required maintenance service or other matters relating to the vendor's ability to deliver in the quality and quantity within the time and price as specified in this solicitation. Selected vendor must at all times have financial resources sufficient, in the opinion of the System, to ensure performance of the contract and must provide proof upon request. The System may require a performance bond if, in the opinion of the System, it ensures performance of the contract. The System may terminate the contract, consistent with the termination for cause provision of the contract, if the vendor lacks the financial resources to perform under the contract. The System may require that a vendor correct any deficiencies as a condition of further evaluation.

VII. ANTICIPATED TIMELINE (SUBJECT TO CHANGE AT GARS DISCRETION)

It is anticipated that the Trustees will award a contract to a vendor at the July 2021 Board meeting and that the final report on the project will be presented by the vendor to the Trustees at the January 2022 Board meeting.

VIII. GENERAL CONDITIONS

A. Clarification of the RFP

To maintain the integrity of the RFP process, interested vendors are expected to respond to this RFP to the best of their understanding. Vendors must not contact GARS staff, Trustees, or related entities about this RFP. If a vendor discovers an error in this RFP or has a request for additional information about the RFP, the vendor should notify the Director of Administrative Services for the State Retirement Systems, Mr. Robert Cooper, by no later than May 28, 2021, at the following email address: robert.cooper@srs.illinois.gov. If deemed necessary or appropriate in the System's discretion, GARS may clarify or modify any part of this RFP or respond to a request for additional information about the RFP by posting one or more notices on the GARS website prior to June 7, 2021. Vendors should communicate about this RFP only with Mr. Cooper, who is the single point of contact for this solicitation. Neither the State nor GARS shall be held responsible for information provided by or to any other person.

B. Restrictions on Communications

Vendors must not discuss or share the contents of their proposals with other potential vendors. GARS policy and the Illinois state ethics law strictly limit communication during the search process. **Any attempt to initiate contact with GARS staff or GARS Trustees, other than as specifically stated in this RFP, may disqualify the vendor from further consideration.**

C. Prior Deficiencies

A vendor that is or has been deficient in current or recent contract performance in dealing with GARS or other clients may be disqualified unless the deficiency is shown to have been beyond the reasonable control of the vendor. GARS may reject a proposal from any vendor that is in default on any debt owed to, or contract with, GARS or other clients, or that is in default as surety or otherwise, upon any obligation to GARS, or has failed to perform faithfully any previous contract with GARS. Vendors that are newly formed business concerns having substantially the same owners, officers, directors, or beneficiaries as a previously existing non-responsible vendor may be disqualified unless the new organization can prove it was not set up for the purpose of avoiding an earlier declaration of non-responsibility.

D. No Confidentiality

Proposals become the property of the System upon submittal, and late submissions will not be returned. All proposals will be open to the public under the Illinois Freedom of Information Act (FOIA) (5 ILCS 140/) and other applicable laws and rules, unless the vendor requests in its proposal that the System treat certain information as confidential. A request for confidential treatment will not supersede the System's legal obligations under FOIA. The System will not honor requests to keep entire proposals confidential. Vendors must show the specific grounds in FOIA or other law or rule that support confidential treatment. Regardless, the System will disclose the successful vendor's name, the substance of the proposal, and the price if a contract is awarded.

If a vendor requests confidential treatment of any portion of its proposal, the vendor must submit an additional copy of the proposal with the proposed confidential information redacted. This redacted copy must describe the general nature of the material removed and must retain as much of the underlying proposal as possible. In a separate legal memorandum, the vendor shall supply a listing of each of the specific provisions that it has redacted and shall offer a detailed explanation of the statutory basis or bases under Illinois law for the redacted provision to be exempted from public disclosure.

Vendor will hold harmless and indemnify the State of Illinois, the System, the Board of Trustees of the System, and System staff and consultants for all costs and damages associated with defending vendor's request for confidential treatment. Vendor agrees that the System may copy the proposal to facilitate evaluation, or to respond to requests for public records. Vendor warrants that such copying will not violate the rights of any third party.

E. Reservation of Rights

Each vendor must read and understand this RFP and tailor its proposal and all activities to ensure compliance with the requirements of the RFP and all applicable State and federal laws and regulations and GARS policies. The System reserves the right to amend the solicitation, reject any or all proposals, issue an award by item/services, group of items/services, or grand total, and waive immaterial defects. Waiver of an immaterial defect shall in no way modify the RFP or excuse a vendor from full compliance with all requirements in the RFP. The System may request a clarification, inspect vendor's premises, interview staff, request a presentation, or otherwise verify the contents of the proposal, including information about subcontractors and suppliers. The System may request best-and-final proposals when appropriate. The System will make all decisions on compliance, evaluation, and terms and conditions, and shall make decisions in the best interests of the System and in accordance with Board procurement policies and applicable State and Federal statutes and regulations. This competitive process may require that the vendor provide additional information and otherwise cooperate with the System. If a vendor does not comply with requests for information and cooperate, the System may reject the proposal as non-responsive to the solicitation. Submitting a proposal does not entitle vendor to an award or a contract. Posting a vendor's name on the System's website does not entitle the vendor to a contract. Neither the System nor the State is responsible for or will pay any costs associated with the preparation or submission of a proposal. F. Award

The System is not obligated to award a contract pursuant to this RFP. If the System issues an award, the award will be made to the responsible and responsive vendor whose proposal best meets the needs of the System as articulated in Section VI of this RFP. However, if the System does not consider the price to be fair and reasonable and negotiations fail to meet an acceptable price, then the System reserves the right to cancel the award and take appropriate action to

meet the needs of the System. The System will determine whether the price is fair and reasonable by considering the proposal, including the vendor's qualifications, the vendor's reputation, all prices submitted, other known prices, the project budget and other relevant factors. The System may post a notice to its website identifying the apparent responsible and responsive vendor whose proposal best meets the needs of the System as articulated in Section VI of this RFP. In accordance with the terms of this Agreement, the Request for Proposal for Actuarial Auditing Services issued by the System on May 21, 2021, and the Vendor's response to the RFP, the Vendor shall provide, at the direction of the Board of Trustees of the System, the Executive Secretary of the System, and their designees, a full-scope actuarial audit of the System's annual valuation for State fiscal year 2020. The services to be provided by the Vendor under this Agreement include, but are not limited to, the following:

- (3) reviewing the System's actuarial assumptions and methodology for compliance with generally accepted actuarial principles, State statutes, and Board policies;
- (4) evaluating the data used for performance of the valuations, including the System's applicable internal control procedures concerning the production of the data used in the actuarial calculations, the degree to which the data is sufficient to support the conclusions of the investigation, and the use and appropriateness of any assumptions made regarding the data;
- (5) replicating the valuation results of the State Fiscal Year 2020 valuation using a mathematical model of plan activity or sampling based on the same data, methods, and assumptions used by GRS;
- (6) evaluating the replicated results and reconcile any significant discrepancies between the findings, assumptions, methodology, rates, and adjustments of the selected firm and GRS;
- (7) providing an opinion as to the accuracy of the actuarial valuation results, including a determination of actuarial accrued liability, normal cost, and expected employer contributions;
- (8) assessing whether the valuation appropriately reflects information required to be disclosed under required reporting standards (GASB, etc.);
- (9) preparing a draft report of its findings by no later than November 15, 2021, and a final report of its findings by no later than December 1, 2021;

(10) delivering an oral presentation of its findings to the GARS Board of Trustees at its meeting on January 14, 2022; and

(11) preparing a letter of findings that can be included in the GARS annual financial report for State fiscal year 2021.

The report should also include any recommendations or opinions regarding alternatives to the actuarial assumptions currently being used or their application. In addition, the firm should provide any recommendations to improve the quality and understanding of the valuation report. The firm shall prepare the draft report of its findings for review and comment by GARS and GRS prior to the issuance of the final report, and the final report shall acknowledge and address any concerns raised by GARS or GRS.

(d) Vendor agrees that it shall not inform any third party of any Security Breach without first obtaining System's prior written consent, other than to inform a complainant that the matter has been forwarded to System's legal counsel. Further, Vendor agrees that System shall have the sole right to determine: (i) whether notice of the Security Breach is to be provided to any individuals, regulators, law enforcement agencies, consumer reporting agencies, or others as required by law or regulation, or otherwise in System's discretion; and (ii) the contents of such notice, whether any type of remediation may be offered to affected persons, and the nature and extent of any such remediation.

(e) Vendor agrees to maintain and preserve all documents, records, and other data related to any Security Breach.

(f) Vendor agrees to fully cooperate at its own expense with System in any litigation, investigation, or other action deemed necessary by System to protect its rights relating to the use, disclosure, protection, and maintenance of System Data.

In the event of any Security Breach, Vendor shall promptly use its best efforts to prevent a recurrence of any such Security Breach.

5. Oversight of Security Compliance.

Upon System's request, to confirm Vendor's compliance with this Agreement, as well as any applicable laws, regulations, and industry standards, Vendor grants System or, upon System's election, a third party on System's behalf, permission to perform an assessment, audit, examination, or review of all controls in Vendor's physical and/or technical environment in relation to all System Data being handled and/or services being provided to System pursuant to this Agreement. Vendor shall fully cooperate with such assessment by providing access to knowledgeable personnel, physical premises, documentation, infrastructure, and application software that processes, stores, or transports System Data pursuant to this Agreement.

Vendor agrees to safeguard all System Data through both physical and digital security means which may include locking filing cabinets, restricted or locked offices, and encryption of digital data.

9. Equitable Relief.

Vendor acknowledges that any breach of its covenants or obligations set forth in this Exhibit A may cause System irreparable harm for which monetary damages would not be adequate compensation and agrees that, in the event of such breach or threatened breach, System is entitled to seek equitable relief, including a restraining order, injunctive relief, specific performance, and any other relief that may be available from any court, in addition to any other remedy to which System may be entitled at law or in equity. Such remedies shall not be deemed to be exclusive but shall be in addition to all other remedies available at law or in equity, subject to any express exclusions or limitations in this Agreement to the contrary.
