Update on Back Wage Adjustments

There are currently 1,000 back wage adjustments remaining to process. We are processing adjustments in retirement date order, from earliest to most recent. We are currently processing September 2018 retirements. Retirees owed an adjustment will be “made whole” back to their retirement date.

We’ll finish the remaining back wage adjustments by the end of 2023. We will provide occasional progress updates as we continue to work through the backlog. Your continued patience and understanding are greatly appreciated.
