

Disability - Reporting Employees Returned to Work

Disability

Returning to Work

- It is both the member and the agency's responsibility to notify SERS when the member returns to work
- If a member was on a Nonoccupational benefit, returns to work, and they become disabled from the SAME injury/illness within 60 days, the 30-day waiting period is waived and the benefit can begin the day after they were last paid by the agency
- If a member is off work on a non-occupational disability and they suffer another injury or illness, their disability can be extended after medical has been supplied and approved by SERS. There would not be another 30-day waiting period as long as they never physically return to work
