RE: FY 2027 EMPLOYER CONTRIBUTION RATE

At a meeting of the Board of Trustees of the State Employees' Retirement System (SERS) on October 28, 2025, the preliminary FY 2027 employer contribution rate was set at 43.455%. This rate will either be approved or adjusted at the January 9, 2026, SERS Board of Trustees meeting. If the rate is adjusted by the Board, a new bulletin will be issued in January.

The employer contribution rate applies to FY 2027 non-GRF payrolls processed for pay periods from July 1-15, 2026, through June 16-30, 2027. Do not change your FY 2026 employer contribution rate.

Employer contributions are due on wages of all employees subject to coverage by SERS. This includes deduction codes 0, 1, 2, M, R, S, and W; and Tier 2 codes of A, B, C, D, K, and W.
